AF-10 IP EFFECTS FAN

Information

Product Description

The Antari AF-10 is high-velocity fans engineered for professional use, combining power, precision, and durability. Featuring a unique swirl-shaped front cover, they maintain focused airflow while reducing turbulence and noise. The specially designed aerodynamic blades ensure optimal air distribution with minimal sound, making them ideal for stage, studio, and installation environments. Built with robust materials for reliable performance, can operate with a simple plug to start or integrate with an optional control box for remote operation. Whether for fog dispersion or wind effects, the AF-10 delivers efficient, quiet, and consistent airflow in demanding applications.
